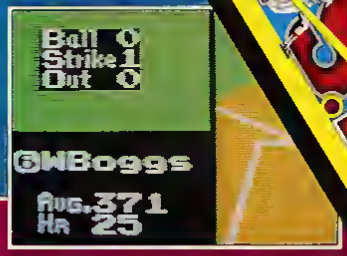
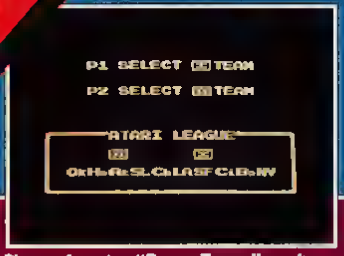
VS. R.B.I.

2-PLAYER COMPETITIVE OR 1-PLAYER VS. COMPUTER

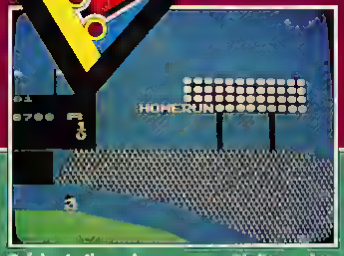


Individual player characteristics and statistics.



Choose from ten "Dream Teams", each with baseball greats.

Split-screen graphics keep players in the action.



Celebrate those home runs with fireworks.

Insert relief pitchers as game starters wear down.

R.B.I. Baseball pitches players the action of big-league ball like never before. Two-player competitive or against the computer, it's the ultimate action/strategy sports game. Players select one of ten "Dream Teams", each with a roster of baseball greats. Like team managers, players put baseball savvy and knowledge on the line. In addition to playing skills, knowing the strengths and weaknesses of teams and players is crucial. It's like real baseball because skill characteristics and statistics are based on actual player performance. An on-screen display of each player's statistics gives game players the inside story.

Amusing animation combined with a touch of humor will put a smile on even the most serious players. At the conclusion of a game, the winner is announced in bold print on front of the daily sports page.

R.B.I. Baseball fits into all VS. System games: UniSystem uprights, dual-monitor uprights, and dual-monitor sitdowns. As a simple software change, it's the low-cost answer to new-game profits.

Step up to the plate . . . it's your turn to drive in the winning run. Call your Atari distributor before it's going . . . going . . . gone!!
